

FALL 2021

# OUR SHARED COMMUNITY RESPONSIBILITIES

## PROTECT YOURSELF

- > **Regularly monitor your own health.**  
Seek advice from a medical professional if you experience COVID-19 symptoms, or if you come into contact with an individual who has tested positive for COVID-19.
- > **Stay in your residence** when experiencing symptoms, except to seek medical care.
- > **Regularly wash your hands** with soap and water or use hand sanitizer.
- > **Wear a face covering** when in a shared space indoors. Exceptions: when actively eating or drinking or within your assigned residence hall room or private office.
- > **Clean high-touch surfaces** daily in your offices and residences.

At the heart of Catholic University's mission is a commitment to serve God and neighbor. We do this by prioritizing the safety and well-being of each member of our community. Keeping Catholic University safe is a shared responsibility.

**WE'RE IN THIS TOGETHER.**

## PROTECT YOUR COMMUNITY

- > **Support safety measures** on campus and be respectful when reminding others to do the same.
- > **Continue to practice social distancing** wherever possible.
- > **Be a good neighbor** by staying informed and following D.C. pandemic regulations.
- > **Be mindful of and respectful toward each other**, acknowledging that we are among a community of both vaccinated and unvaccinated people.
